

Regional District Move Could Block Resource Center

Despite a letter from Mr. K.I.G. Benson, Assistant Deputy Minister, Health Branch, indicating that the letter could be considered as a formal letter of intent on behalf of the Province of British Columbia, Department of Health approving the construction of a multi-purpose, multi-functional Health and Human Resources facility on a site actually earmarked in the downtown area for this construction, the Advisory Committee of the Kitimat-Stikine Regional Hospital District has decided "that there be prepared for submission to the Minister, a brief listing the advantages and disadvantages of both the proposed locations for the Terrace Human Resources and Health Services Center noting that this committee is of the opinion that the hospital site is in the best interest of the long-range patient-client user."

opinion, hereunder is the letter written to John Pousette by Deputy Minister Benson:

Dear Mr. Pousette:

Thank you very much for your letter of June 21, 1974 which represents your Regional Board's approval in principle to the construction of a multi-purpose, multi-functional Health and Human Resources Centre in Terrace.

You may consider this letter as a formal letter of intent on behalf of the province of British Columbia, Department of Health approving the construction of a multi-purpose, multi-functional Health and Human Resources facility. Accordingly, I would ask that you put this matter before the Board for their final approval.

Outlined in point form is a firm understanding of the financing formula and other comments concerning the proposal:

The Cost sharing formula which will apply to the Public Health - Mental Health space requirements within the proposed facility will be 80 - 20 (80 per cent Provincial, 20 per cent Local).

The financing of capital construction costs and or leasing of the space requirement of the Department

of Human Resources and Probation Services and other facility users is essentially a matter of concern as between the user Departments, the Regional District and Department of Public Works. Mr. Norman Dixon of my staff could act as a liaison and co-ordinating resource person.

Recovery of capital construction costs and financing of space requirements and leasing space to local and federal government agencies is the sole concern of the Regional District.

Leasing of Public Health and Mental Health space requirements will be under our usual formula which I believe has been discussed with you.

It is understood that you may request the Department of Public Works to provide janitorial, maintenance, and snow removal on a fee for service basis. It is further understood that the Province of British Columbia holds options on this property and that the Department of Public Works, subject to Treasury Board approval, will exercise

these options.

The Department of Public Works will undertake and be responsible for all architectural requirements. They may at their prerogative contract a local architect for the necessary architectural services.

Dr. L. Bolduc, Director, Skeena Health Unit will act on behalf of the Department of Health, Health Branch in all matters at the local level concerning Public Health and Mental Health space requirements in the proposed facility as it pertains to cost

sharing, construction, etc. Mr. Norman Dixon of my staff will act as a co-ordinating and liaison person in respect to all Head Office requirements and co-ordination.

In conclusion, I would ask that you convey to your Regional Board my thanks for their endorsement of this proposal as we look forward to a continuing and mutually satisfactory relationship.

Yours very truly,
K.I.G. Benson,
Assistant Deputy Minister.

Regional District Building-by-law Squeeks Through

Electoral Area Director David Bowen - Colthurst who has vociferally opposed a proposed building-by-law for the region obtained considerable support following shenanigans at the last Regional District meeting held in Kitimat last Friday when Director Perry York of the Village of Hazelton, and Director John Black of Electoral Area "D" voted against the second reading for by-law 33. Voting in favour were Marty Allen of Electoral

Area "B", Corbin King of Electoral Area "A", Frank Armilage of Stewart and the two Kitimat Directors, Joe Banyay and George Thom. This made the vote 5 to 3 in favour of adoption.

The By-Law was given first and second reading during the course of the May 24 Regional District meeting at which time Bowen-Colthurst was recorded as being opposed. However at this July 12 meeting the same by-law was again brought

before the directors for a second vote on the second reading due in the main to a massive amendment dealing exclusively with mobile home parks regulations. It was this last measure that prompted the other two directors to line up with David Bowen-Colthurst as opposed to the by-law which is one to regulate the construction, alteration, repair of building and structures along with the mobile home section.

It appears to have been the

intention of the Board to make this by-law through at this meeting but the protests have put third reading and final approval off until the next meeting scheduled for God knows where as Ev Clift, Chairman of the Kitimat-Stikine preferred not to divulge the place of the next meeting as per usual. He informed the press that the time and place of the next meeting would be determined by a telephone poll the members of the Board.

The above car was totally destroyed in an accident on the Queensway in Thornhill on Friday that claimed the life of a Terrace man, Lloyd Stewart, and hospitalized four other Terrace people, Georgina Wright, Ralph Shaw, Sam Lincoln and Victor Lincoln.

Regional District Turns Down Hospital Board

Mills Memorial Hospital Board members were told that their estimates for its expansion renovation program were underestimated and were sent back to come up with more realistic figures, at the meeting of the Regional District Hospital Board held in Kitimat last Friday afternoon.

Victor Jolliffe, Chairman of the Hospital's Board's Construction committee, was stunned during the regular meeting of the Regional District Hospital Board on being advised of the decision by Chairman Ev Clift. It would appear that the impression gathered by the hospital Board delegation during a morning secret meeting was completely at variance with the decision announced at the public meeting. Member of the Hospital Board Fred Weber also expressed surprise on hearing of the Regional District's decision.

Chairman Jolliffe, who remained in Kitimat for the Public Meeting, rose to ask the Board why it has changed its view since the morning meeting. Ev Clift replied that it was the decision of the Regional District that the Contingency sector of the construction figures were greatly underestimated and the allowance for inflation was inadequate.

Chairman Clift then issued an incredible directive to the Chairman of the Hospital Board. He told Mr. Clift to have the Board carry on to just prior to the working drawing stage of the program and then come back to the Regional District Board with more realistic figures for consideration.

This action almost floored loquacious Vic Jolliffe. In fact it is the first time in the writer's memory that this controversial figure was at the loss for words. He could only stare at the figure of the Regional District Chairman, although because the latter has adopted a habit of wearing sunglasses during the course of meeting, it is impossible to read his expression.

When Mr. Jolliffe regained his composure he advised the Regional District Board members that the decision to go ahead was not a prerogative of the Regional District as this body is merely the financing agency for the Hospital Board and that the permission to go ahead had already been indicated by the British Columbia Hospital Insurance Service.

"This information did not seem to impress Mr. Clift and when he was asked point blank whether it was the Regional District's intention of amending the financing by-law to increase the available money from the \$200,000,000 figure put

forth by the Regional District Board to the more realistic figure of \$600,000,000, Mr. \$6,000,000 Mr. Clift replied emphatically "NO" again repeating that the Regional District would need more realistic figures before even considering the project.

The project to provide 22 psychiatric beds in the Mills Memorial Hospital, and a closed in section which will eventually include 25 acute care beds is now shelved, in so

far as financing is concerned, unless the Board goes directly to Minister Denis Cooke for action.

Kitimat Director Joey Banyay did not feel that this route would be very fruitful saying "that without the sanction of this Board the hospital can't do anything."

Kitimat Director George Thom voted against the Regional District's decision and asked that his vote be recorded. (Further details Page 4)

Blood Donor Clinics

Terrace residents are reminded of the upcoming blood donors clinic. The clinic will be held from 1:30 to 4:30 p.m. and from 6:30 to 9:30 p.m. on both the 25 and 26 of this month at the Terrace Arena. Remember to Give and Let Live, give freely of your blood.

Technical Planning Individual poll Committee Decision results for Skeena Would Destroy Golf Course

Wayne Epp along with member Laurie Todd and Pro-Manager Art Park of the Thornhill Golf and Country Club, travelled to Kitimat last Friday in an effort to stall a decision taken by the Kitimat-Stikine Regional District Board's Technical planning Committee that would virtually close the Thornhill Golf Course. In fact Art Park indicated that the delegation had come to the meeting to attempt to save the club.

The decision taken during the course of the June 5 meeting of the Committee recommended to the Regional District Board that a letter be sent to the B.C. Hydro and Power Authority stating that a proposal to bring Skeena and Glennean transmission line through the Telkwa Pass, down the Copper River and around Thornhill Mountain, across Jack Pine Flats area, south of the airport bench to the Thunderbird station west of Terrace is an acceptable route for the Regional District.

This recommendation means that this power transmission line would be constructed right in the middle of the proposed second nine for the only local golf course.

Pro-Manager Art Park said the plans for this construction are for the immediate future with some work being done this fall and the major project slated for the spring. He said that the Hydro line would wipe out five of the

proposed nine holes.

It is inconceivable that the Technical Planning Committee was not aware of the fact. In fact Assistant Regional District Administrator to the Regional District, Ray Parfitt sits on this Board, and was present at the meeting concerned. Mr. Parfitt is responsible for planning in the region. Others on the Board, and present at this meeting were Vice-Chairman F. Martin who presided. He is with the Department of Highways, in Smithers. Other members present were:

D. Ferrier Reg. Land Insp., Smithers
M. Baillargeon Pollution Control Br., Fr. George
W. MacDonald Dept. of Highways, Terrace
B. Chudy Fish & Wildlife
Terrace M. Walley Fish & Wildlife, Smithers
R. Truant Forest Service, Prince Rupert
B. Dudas Dept. of Mines, Prince Rupert
E. Wilson Water Resources, Prince George
D. Berry Land Inspector, Prince Rupert
L. Broddy Dept. of Lands, Prince George
R. Parfitt Regional District of Kitimat-Stikine
It was the decision of the Kitimat-Stikine Regional District Board to contact Hydro to see whether or not they will re-locate their power line and towers to so that the Thornhill Golf Course can carry out its plans for an 18 hole course.

These are the unofficial poll by poll returns from last Monday night's election. Returning officer Nick Gurvich will have the final and official results tomorrow today but he said he does not expect them to be much different from these figures.

A good crowd turned out for the first meeting of the Terrace Ratepayers Association.

Regional District to take over Ski Development

The Kitimat-Stikine Regional District Board appears to be finally placed in a position of responsibility for the Kit-sumkalum Ski Hill development, despite the fact, that it has to, date, not made any effort to assume the important function of recreation.

The Development Society, which has been thwarted for more than a year in its efforts to get the project going received another set-back when the government refused to allow a referendum on the grounds that the control would have to be vested in the Regional District.

In a further effort the Kit-sumkalum Ski Hill Development Society had informed the Regional District that it is prepared to transfer its right to

develop the project of the Board.

The Board has instructed Administrator John Pousette to proceed with this agreement.

It was not possible to find out whether or not this will necessitate the Regional District assuming the function for Recreation. The period allotted to questions form the press has been cancelled by Chairman Ev Clift at the past two meetings and the press which has travelled to there last four meetings which have been scheduled away form the luxurious new Board Room built for the Board was informed that if it has any questions, they can be asked in the privacy of the Regional District Office away, of course,

from the general public and the full Board.

The last meeting to be held in the Regional District Offices was way back in February to the year. It appears that the next meeting will also be out of town. In fact the new Board room has not been used for a public meeting to date.

The Prince Rupert Forest District Fire Summary for the week ending July 12, 1974.

Cloudy, cool and showery weather has been fairly general throughout the district over the past week, the exception being the Dease Lake - Atlin and Lower Post regions where it has been warm and dry.

Scattered lightning was reported Monday through Thursday in the interior areas

his official mark signifying that the symbols and units used are in accordance with the National Standards of Canada. CAC National Office is located at 251 Laurier Ave. West, Room 801, Ottawa, Ontario, K1P 5Z7

Ratepayers Declare War

At a well attended meeting Thursday night, a group of concerned citizens presented their case to the taxing public. Taxes seemed to be too high in their estimation and they felt that something should be done about it. Some of Terrace's more prominent citizens were at the meeting and it was rather obvious that with the large amounts of land that some of these people own, they don't like the taxes at all.

The question of who should be

allowed to belong to the association came up at the meeting. There were many points of view on this topic and eventually one of the crowd's ideas was adopted, and that was that everybody and their dog be allowed to join.

Officers were elected and a total of ten people are on the present executive. Tom Olson is president of the group and Mrs. Greg is secretary. As soon as the organization is off the ground, a telephone number where you can phone in complaints will be publicized.

Dr. Wallace in Terrace Friday

The dust has barely settled after the Federal election campaign and the Terrace P.C.'s have announced that Dr. G. Scott Wallace, Leader of the Progressive Conservative Party of British Columbia, will be in Terrace this Friday, July 19.

Scott Wallace will be in Prince George July 17 and in Prince Rupert July 18 before visiting Terrace. On Friday morning he will be a guest on Tom Chesterman's Open Line on CFTK open line show, and in the evening he will speak at a public dinner meeting in the Terrace Hotel. Tickets to the dinner, to commence at 6:30 p.m., may be obtained from Gail Johnson at 635-4778 or at Bud McColl's Real Estate office. People not able to attend the dinner are welcome to come at 8:00 to hear and pose questions to the Conservative Leader.

Dr. Wallace will be speaking on the effects of the legislation enacted by the NDP govern-

ment during this past session, the direction in which the NDP government is taking the province, and the future of the opposition parties.

Dr. Wallace's visit comes at a time when there is an apparent movement to some kind of realignment among opposition. Recently Allan Williams and Pat McGeer, Liberal M.L.A.'s, and Scott Wallace have expressed interest in forming a unity party and Peter Hyndman and Tony Saunders, Tory officers, have joined the B.C. SOCIAL CREDIT LEAGUE.

In East Africa, people seeking refuge didn't go into the church, as Europeans do, but went to the drum-makers!

Pictured above are the President and Secretary of the newly formed Terrace Ratepayers Assoc., Mr. Tom Olson and Mrs. Elaine Gregg.

Thank You

I would like to offer my congratulations to Ms. Campagnolo on her election as MP for Skeena and wish her every success in Ottawa. I would also take this opportunity to offer my sincere appreciation to the people of Skeena for their constant support over the past 17 years.

Thank You Sincerely,

Frank Howard.

Federal Skeena N.D.P.
Box 205
Terrace, B.C.

Fire Summary

while more severe lightning was reported in the northern regions.

Five new fires were reported, bringing our seasonal total to 37. Two of these fires were a result of lightning while three were man caused. All fires were controlled in the early stages.

We ask the public to remember that the forests are theirs, they should use them to protect them. If campfires are used, be certain they are completely extinguished before leaving the area. If a fire is discovered, report it to the nearest Ranger station or call Zenith 5555. The line is open 24 hours a day - it's free and will initiate immediate control action.

Have a good weekend.

This dangerous rock overhang above one lane of the two-lane Highway 16, about 39 miles west of Terrace poses a real threat to trucks with high loads. In order to avoid striking the cliff above them, the drivers have to swing their vehicles into the oncoming lane of

traffic. As this is a curve, it is impossible to see if a vehicle is coming toward them. Highway 16 has been slated for priority in upgrading. Drivers have expressed their hope this danger, illustrated above, will therefore be soon removed.

P.C.'s Meet for Dinner

On Friday Night July 12 the Progressive Conservative Party met for dinner at the Bavarian Inn. 24 hard working members sat down for a delicious dinner after a short cocktail hour.

During the dinner hour discussion took place as to future plans of the party and preparations were made for the forth coming visit of Dr. Scott

Wallace - leader of the B.C. Progressive Conservative Party. Dr. Wallace is to be here on Friday July 12 for a radio talk show, a television interview, a smorgasbord dinner at the Terrace Hotel Skeena River Room followed by a public meeting.

After the dinner the group adjourned for dancing in the Bavarian Cabaret.

Volunteers Needed for Blood Donor Clinic

The Terrace Kinetics urgently need help with their Red Cross Blood Donor Clinic. to be held on the 25th and 26th of July. The times for the clinic are 1:30 to 4:30 p.m., and from 6:30 to 9:30 p.m.

800 pints of blood are needed by the Red Cross to fill Terrace's quota. Last year the

people in Terrace required 717 pints of blood but only gave 476. If you can help with the clinic, phone Dianne Verwey at 635-3456 or Sharon Brewerton at 635-2008.

If you can't help with the clinic but are over 18, turn out and give a pint of blood. It may save a life...possibly your own.

Driving the family to your favourite vacation spot this summer? The B.C. Automobile Association urges you to give your loved ones extra safety insurance by keeping alert behind the wheel. The motoring organization says you can avoid drowsiness and "Highway hypnosis" by keeping the conversation going, listening to lively music on the car radio, and keeping plenty of fresh air circulating inside your vehicle.

OLD TIMERS CORNER

The Old Age Pensioners' Organization there will be a special meeting next Wednesday, July 24 at 2:00 p.m., in the Senior Citizens Room at Arena. The President of the B.C. Organization is coming up from Vancouver so if you are curious to know how the organization can work for your please attend this very IMPORTANT MEETING. A chicken dinner will be served after the meeting and there will be a small charge to cover expenses. Anyone needing a ride please phone me at 635-5339.

I attended a meeting recently to discuss proposed plans for the new Senior Citizens Residence. The new residence will be very attractive and possibly will be two stories. It will be located on Kalum Street right next to the entrance to the Arena. An excellent location for easy access to all services. At a late date a committee will be appointed to handle ap-

plications, but as yet it is a little premature as completion date is set tentatively for next summer.

For those who may be curious about Meals on wheels, Mrs. M. Langley of Terrace Community Services informs me the special containers for meal transportation are on order and hopefully will be received in the near future. It takes a great deal of preparation to set up a service such as this but it is hoped to start serving meals next month. For information please phone Mrs. Langley at 635-5135.

Mr. L. Levesque is now feeling better after his recent operation, and Mrs. N. Martel is back home after a short stay. For anyone feeling poorly a best wishes go out for a speedy recovery.

For more information on anything in this column or about the O.A.P.O. please phone me at 635-5339.

Highlights of the Technical Planning Committee Meeting of the Kitimat-Stikine Regional District Board

LAKELSE LAKE

Re Sewage disposal systems for Lakelse Lake Picnic site and Furlong Bay campsite - the TPC was informed that sewage disposal systems for both the picnic site and the campsite were being worked on by the Parks Branch. Although no definite completion date has been established, it is hoped that the work will be done this summer. The Parks Branch stated that the effluent would be pumped back 3,600 to a tile field.

Bob Quinn Lake Commercial Leases

Duly moved and seconded that the TPC advise the Board that the Department of Highways, Department of Health, and the Lands Branch will be getting together and scheduling an onsite inspection of the proposed Bob Quinn Lake Commercial Lease sites.

Klappan Applications

It was mentioned by the Lands Branch that both the recent applications for Argicultural leases in the Klappan area have been withdrawn.

Correspondence:

1) Presented was a letter from W.T. Lane, Chairman, B.C. Land Commission, dated May 3, 1974, re subdivision and Land Use Regulations.

Duly moved and seconded that the TPC recommend to the Board that they request that the B.C. Land Commission include an additional option regarding subdivisions to cover single parcels that are physically isolated from adjacent properties; i.e. cut off by railroads, rivers, roads, or topographic features.

2) Presented was a letter from A.H. Raifs, Surveyor General and Director, Surveys and Mapping Branch, dated May 17, 1974 re: Photography and mapping request from the Terrace Area

3) Presented was a letter from Don. R. Smyth, District Superintendent of Schools, Terrace, B.C., dated May 9, 1974 requesting the approval of the TPC for an educational reserve to be placed on:

a) a small area surrounding Human Lake and the Creek between the Lake and the Indian Reserve at the mouth of Herman Creek, b) The fossil bed located about thirty-three miles up the Copper River road from Hwy. 16

Present at the meeting were Mr. Don Smyth, Mr. Allen Wootton, and Mr. Morris Bogart (From the Federal Fisheries). A presentation of slides was made, photos shown as well as fossils, believed to be 180 million years old.

Duly moved and seconded that the TPC support there request for educational reserves by the School District 88 in the small area surrounding Herman Lake and the Creek between the Lake and the Indian Reserve at the mouth of it and on the Fossil

Bed located about thirty-three miles up the Copper River Road from Hwy. 16, and that the School District 88 apply in detail to the B.C. Lands Branch, and the B.C. Forest Service for both reserves.

APPLICATIONS FOR LAND LEASE OR SUBDIVISIONS:

1) Lease Rental Review Thornhill Garbage Dump Ptn. of L. 518, R5C

Duly moved and seconded that the TPC recommend to the Board that the lease on the Thornhill Garbage dump be renewed for one year only, pending planning developments in the unorganized area and that the leasee apply for a Pollution Control permit as required by the Pollution Control Act. The TPC stated their dissatisfaction with the situation of the Thornhill Garbage Dump but at the present time cannot see a suitable alternative for the immediate future.

Reports

1) Progress Report on Recreational Development & Rest Side Stops on Stewart-Cassiar Highway

The Department of Highways reported that the following rest stops were to be developed soon along the Stewart-Cassiar Highway:

1) Bear Pass (5 tables and 1 toilet)

2) Hodder Lake (5 tables and 1 toilet)
3) Mile 158 (3 tables and 1 toilet)
4) Tanzilla River (4 tables & 1 toilet)
5) Stewart-Cassiar - Cassiar (4 tables & 1 toilet)
6) Good Hope - 15 miles north (6 tables and 1 toilet)
7) 45 miles North of Good Hope (3 tables and 1 toilet)

The Forest Service stated that their work crews will be going north very soon and they have planned sites at Kinisktan, Meziadin Lake and at the Cottonwood River, with the site at the Estew River on Highway 16 to be developed later this summer.

2) The Upper Watershed of the Kispiox River as a Nature Conservancy

Presented to the TPC, as was presented to the Board at their meeting of May 24, 1974, was the brief prepared by the Kispiox Valley Community Association, Zoning & Planning Committee. The brief details the location, access, physical description, fish & wildlife values, scenic & Historic highlights, and total conservancy area for the Upper watershed of the Kispiox River. The report also outlined planned resource use proposed for the Kispiox Valley, i.e. forests, wildlife and recreation, and agricultural. The report concluded with policy recommendations by the Associations.

Some discussion followed regarding the effect of logging and farming on the Kispiox River as a whole.

3) Thornhill Zoning Plan Report

The following resolution by the Board was presented to the Technical Planning Committee:

"...that Thornhill is to be developed as a separate community, capable of full independence and self sufficiency this will require concentration of development in present Thornhill planning areas with restricted development in the remaining areas;

...that Provision be made for agricultural and small holdings on land suitable for such development in present Thornhill Terrace development area but such holdings are to be sufficiently large so as to require an absolute minimum of servicing;

...that land that appears unsuitable for development be separated out of the Greater Thornhill Terrace development areas and frozen unsuitable for development; ...that Provincial regulations and restrictions with respect to the Health Act, Water Act, Highways Act, Greenbelts Act, Municipal Affairs, and the B.C. Land Commission, Pollution Control Act, and all related acts be fully considered and incorporated in to the final plan."

Now you can turn \$2.50 into \$250,000!

With a Western Lottery ticket!

They're on sale now from any authorized service club, charity group or similar non-profit organization. Also from the Provincial Government agent in your area. Alternatively, you can complete and mail the form below.

Either way could net you the first prize of a quarter of a million dollars. Imagine how that could change your life! And all for just \$2.50. Do it today!

PRUDEN & CURRIE LTD.

Real Estate & Insurance

4646 Lakelse Ave Terrace B.C.

635-6142

4904 Scott Avenue

This is a lovely home, 1246 sq. ft. with full basement, three bedrooms plus a fourth in the basement. A floor to ceiling white rock fireplace is located in the living room and a sundeck over the carport overlooks a nicely landscaped and well maintained yard.

Convenient Location

Lovely house on paved roads, close to town and a high school. This home has two bedrooms, plus a third in the part basement. The kitchen is large and modern with lots of cupboards and the fridge and stove are included. There is a dining room and a living room with a fireplace and a patio which looks out onto a nicely treed lot with flower beds around. The yard has a play area for children, a small garden area and a tool shed.

2713 S. Eby

Three bedroom home, with two bedroom suite in the basement complete with bath. Drive by this lovely home and call Dwain McColl to view.

Lakelse Lake

Crown lease lot with small cabin. Drive right to the cabin at the end of Beam Stn. road. The water front is shallow and safe. Only \$3,500.00

Three Large Lots,

Approximately two acres each, located in the municipality and nicely treed. Priced to sell at \$10,000 each with low downpayment.

Excellent commercial Site

In Thornhill. All cleared and flat located directly across from the school at Clark Rd. This is 1.74 acres with frontage on highway 16 east and on Clark Road. For further particulars please call Rusty or Bert at 635-6142 during the day and at 635-5754 evenings.

4926 Lazelle Avenue

This is an immaculate home nearing three years of age. It has three bedrooms, full basement, carport, landscaped yard and a vegetable garden is planned. This home is priced to sell at \$39,500.

Three Bedroom House

On a cul-de-sac, quiet area with playground close by. Full basement, landscaped yard, cathedral entrance and does have potential for a fireplace. For an appointment to view please call Rusty or Bert Ljungh at 635-6142 during the day and 635-5754 evenings.

Light Industrial

Just over one acre of light industrial land centrally located on Keith Ave., next to the O.K. Tire Store. Some terms available. Call our office for further details.

Large Garden Lot

Cleared acre and an eighth on McDeek St. The ideal lot for the amateur gardener. For further information contact Rusty Ljungh at 635-5754.

One Acre

In a Quiet residential area, close to schools and shopping. The two bedroom home requires exterior finishing. F.P. \$21,000. Immediate possession. Call Dwain McColl for further information.

4841 Olson

Compact two bedroom home with third bedroom off back entrance, closed in porch, separate garage and electric heat. Lot is 70 x 122 and the home is well located to schools. Full price is \$26,500. Phone Bert Ljungh to view at 635-5754.

Secluded Location

Well kept three bedroom home on an acre and a eighth with a river view on Skeena St. The lot is well treed with lawn around the house. The house is approx. 1100 sq. ft. with wall to wall carpeting, oil furnace double carport - plus a well built one bedroom suite with separate entrance and a four piece bathroom. For an appointment to view phone Bert Ljungh.

Brand New On Churchill Drive

Lovely three bedroom home with shake roof, skirli siding and electric heat, nearing completion in a restricted subdivision in Thornhill. This cathedral entrance home has wall to wall carpeting throughout, fireplace up and down, finished four piece bathroom and laundry room in the basement and attached carport. The basement has the wiring completed and the walls are strapped and insulated ready for finishing. For further information phone Rusty or Bert Ljungh at 635-5754.

Close to Schools - Immediate Possession

Three bedroom home with fourth bedroom and 1/2 bathroom in the basement, double carport, fireplace, wall to wall carpeting, oil hot air furnace heat, located on a landscaped corner lot. For viewing contact Bert Ljungh at 635-5754.

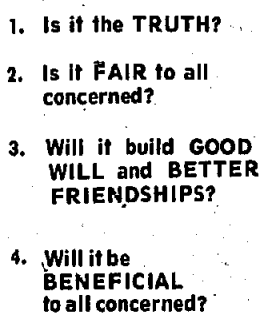

In Mint Condition

Three bedroom home with wall to wall carpeting, free standing fireplace, a nicely decorated interior and electric heat. The lot is landscaped and features an organic garden, fenced back yard and garden shed. Full price \$27,500.00 Phone Rusty or Bert Ljungh for appointment to view - 635-5754.

This Petition was turned down by the Kitimat-Stikine regional Hospital Board last Friday - See Page One.

Most of the complaints coming in to the Post Office concern the Assured Mail program. The Canada Post Office has made a commitment to do everything possible to deliver first class mail according to a stated schedule — usually next delivery day service — to the 66 major cities on the Assured Mail network, provided the mailing deadlines are observed and proper mailing procedures, such as correct

By 1977, there will be 26 centres in Canada equipped with the most modern mail-sorting machinery anywhere. Coupled with this will be Optical Character Readers that will take over much of the present manual scanning of the postal code. By that time it is expected that all the bugs will have been eliminated from the system, and Canadians will be getting what the Post Office is currently promising, that is, the best and most efficient postal service in the world.

I looked the field over pretty carefully, searching for a career with a built-in escalator. And the field looked right back at me with a cold and steely eye, saying, in ef-

In the past, we have been given a grant from the municipal council to offset our taxes, and have only had to pay \$100 for by-laws No. 688 and 689. This year, the taxes amounted to \$794.63 a considerable jump over the

Yours very truly,
Mrs. Bar bara
Phillips,
Corresponding
Secretary.

Dear Mayor Rowland: Thank you for your letter of June 3, 1974, introducing the Skeena Junior Secondary School Band as official representatives of the District of Terrace official representatives of the District of Terrace to our city, on the occasion of their visit to Expo '74.

We were greatly impressed with the performance of these young people, and enjoyed meeting and visiting with Mrs. Marion De Armond and other representatives of your community.

Pictures commemorative of their visit were taken and will be sent to Mrs. De Armond.

Sincerely yours,
David H. Rodgers
Mayor
Spokane Washington

The cost of educating the children in the public school system is more than \$800 a year. Veritas educates more than 180 students so the contribution to the community is great.

As the teacher ages used by the Public School are tax

the ever increasing threat of inflation even though they apparently don't feel any strong measures are needed to curtail it at the present time. To remove him as opposition leader at this critical time is going to be a great loss to all Canadians.

apparent discontent with the provincial government and a similar discontent with the minority government as the two main reasons. I believe his absence will be strongly felt in the months ahead.

It is very interesting to note the lack of any real vote of confidence for our newly elected MP in her home town of Prince Rupert where she is apparently very well known. I wonder if they could not very well be telling us something?

D. 11

This may not come as much of a shock to the average motorists who simply has to drive on down the road to the next station but it certainly poses a major problem to the booster who has calculated his fuel consumption such that he cannot go to the next fuel stop which is at Klemtu, around 200 miles south.

Gulf Oil spend no end of money to tell us how great the products are and how tremendous the service is at their stations' but just this minute an outlet shows signs of running in the red it is minute an outlet shows signs

Gulf Oil spend no end of money to tell us how great the products are and how tremendous the service is at their stations but just the minute an outlet shows signs running in the red it is very quietly closed out without a second thought to those who might be counting on it. At the time when the profits of one of the worlds largest petroleum conglomerates is at the highest one would think they might have the conscience to operate at a loss during the peak of the boating season or at least to let us know it is being closed out

Thanks Mr. Editor for the use of this space, its a pity when you and I have to do the job of a highly priced Public Relations Officer sitting on his fat duff in a plushy office thinking up cunning gimmicks to entice us out of our bucks when simple good honest service would do the job twice as well.

Ted Campbell

How to Survive a 40 M.P.H. Crash into a Brick Wall

A sedan designed to protect its four passengers in a 40 mile-per-hour collision with a brick wall made its debut June 4 at the Fifth International Technical Conference on EVS in London.

EVS means 'experimental safety vehicle, and Nissan' Motors, makers of Datsun cars and trucks, displayed the firm's latest EVS innovations. The vehicle exhibited in London is the third edition of the EVS from Nissan.

'Human engineering' studies have helped Nissan develop better handling characteristics for the EVS, and added protection is given by radar-controlled auto-brake system, an alcohol interlock system and dozing prevention devices.

Seats are scientifically designed to minimize injury to passengers from impact in any direction and the vehicle will protect passengers against moving barriers rear-end collisions at speeds up to 30 miles-per-hour, (50 km-h) against 40 miles-per-hour (65 km-h) barrier collisions. The unique composition grill and bumper is designed to protect pedestrians. Wind shield design provides improved driver visibility unimpeded by front pillars.

Other safety innovations include an anti-skid device,

explosive-type air bags and safety tires to keep the vehicle moving even if they are punctured.

Nissan developed the EVS under contract to the Japanese government at a cost of over \$7.5 million. While many manufacturers were asked to produce EVS models, the Datsun manufacturer was one of the first to actually produce one in the 2,000 pound category. At present, it is a one-of-a-kind experimental vehicle not in production or available for purchase.

Principal specifications are: Overall length, 13.83 feet (4150 mm); overall width, 5.31 feet (1595 mm); overall height, 4.56 feet (1370 mm); wheelbase, 90.80 inches (2320 mm); tread on front, 51 inches (1275 mm); tread on rear, 50.6 inches (1265 mm).

HOW TO COMPLAIN

When writing a company about unsatisfactory merchandise or service, be sure to include all relevant facts, particularly dates, advise Consumers' Association of Canada. Be concise and state clearly what you would consider a fair settlement. Avoid sounding apologetic or overly aggressive. And Remember - a

Seated above, from left to right, are Harold Hawkins, John O'Leary, Letti Vicelli, Dr. William Buckler, Merle Smith, Douglas Mowat, and Les Watson. These seven people comprise the Advisory Committee on the Needs of the Physically Handicapped that will be holding public meeting in the Green Room at the Terrace Hotel on Saturday, July 20th, beginning at 9:30 a.m. and 1:30 p.m.

Minister Asks for B.C. Day Recognition

Provincial Secretary, the Honourable Ernest Hall, has written to Mayors of Incorporated Municipalities throughout the Province, asking for local recognition of British Columbia Day, to be celebrated for the first time on August 5.

Under the British Columbia Day Act, which received Royal Assent on May 3, the first Monday in August has become a legal holiday.

In his letter, the Provincial Secretary says, "...you may wish to set aside that day and the remainder of the week as a

time for your community to honour the pioneers and the elderly citizens who have contributed to much to the blessings we enjoy today." Mr. Hall suggests a civic declaration as to the purpose of British Columbia Day might be in order.

The British Columbia Day Act notes that the Government of the Colony of British Columbia was established by an Act of the British Parliament passed on August 2, 1853, and calls for the annual recognition of "...the pioneers who built the Colony of

British Columbia into the great Province that it is today."

Your Blood Could Save Five Lives

What does the Red Cross DO with all that blood. Have you ever pondered this question as you read yet another appeal for Red Cross Blood Donors? The miracles of modern medicine - Open that heart surgery, the artificial kidney, treatment of leukemia - are all dependent upon large quantities of blood. At the same time, researchers in hospitals and red cross blood banks are constantly discovering new ways of using blood more efficiently. Your ONE blood donation can now save the life of as many as five different people. None is wasted.

Be a Red Cross Blood donor in Terrace, at the Civic Center, Thursday, July 25 and Friday, July 26, 1:30 to 4:30 and 6:30 to 9:30 p.m.

Consumer Counselling

With Margaret Perry

An observant and enlightened neighbour of mine loaned me a copy of the May 1974 Consumer Reports, which contains an interesting if not frightening article. Entitled, "Aerosols: The Medical Cost of Convenience" the report deals with some alarming facts that could make you throw away all your aerosols cans - just like my friend did.

The report claims there are thousands of deaths every year associated with the use of sprays. In addition there are intensive studies focusing on damage to organs such as the hearts and lungs caused by use of household sprays.

Scientific research is primarily concerned with the propellants used in all aerosols. The most common type is a combination of the chemicals fluorine and carbon; when laboratory animals were exposed to large doses of this chemical compound it was noted that irregular heart rhythms were produced and in some cases death resulted.

In human beings other physical changes were observed.

For example it has been observed that the chemicals comprising the propellant can act on human heart muscle, restricting its ability to contract properly. The lungs too suffer from use of aerosols. Take this instance, two roommates, both suffering from a rare form of lung cancer were hospitalized. An investigation revealed that the only link between these two cases was that both women used the same underarm deodorant spray, and had used it continuously for two years. Also, a less commonly used aerosol propellant (vinyl

chloride) is being connected with an extremely rare liver cancer.

The article continues to describe the other dangers of aerosols and it's worthwhile reading. Admittedly these facts are controversial and until facts can be positively stated aerosols on the market will remain. Nevertheless if you believe that these sprays are harmful there are steps you can take.

1. Buy a substitute product. Most products available as sprays can be purchased in other forms. An added bonus is that the substitute form is less expensive.

2. If you do use a spray do so in a well ventilated area, keeping the spray out of the eyes, leave the sprayed area as soon as possible.

Kispiox Valley Conservancy Brief

The Kispiox Valley Community Association Zoning and Planning Committee has prepared a brief entitled 'The Upper Watershed of the Kispiox River as a Natural Conservancy.' It details the location, wildlife, and a physical description of the area. It also tells of a need for an area Conservancy for this area. The group feels that the provincial government should put a reserve on the upper Kispiox River watershed and halt all immediate development in this area and that this environmentally delicate region be reclassified as a nature conservancy as set

down in the statement of 'Policy Regarding Nature Conservancy Areas', approved by the Hon. R.A. Williams, Minister of Lands, Forests and Water Resources.

They feel that this conservancy should be placed within a provincial park complex which will protect it from outside development. The idea is not to stop everything going on with this area, and controlled motor vehicles, logging, and hunting would be allowed, providing they were supervised by the Parks Branch. The main reason for the conservancy is well explained in the excerpt

from an unanswered letter written by Jack Lee to the Minister of Recreation in 1973: "...but there is a younger generation, part of which will probably like to fish and hunt, and a generation yet unborn, which may have an interest in the same things. So let the plans be made for the future."

C.A.C. to challenge Air Fare Hike

CAC President Jim O'Grady today announced that CAC is asking for a public hearing before the Canadian Transport Commission to examine the proposed increase in air fares due to take effect on July 21. CAC will be challenging rate increases filed by Air Canada, CP Air, Eastern Provincial, Pacific Western, Quebecair and Transair. Air Canada and CP Air increased their rates by 10 per cent in February and are now proposing a further 9.5 per cent increase. The smaller airlines have followed a similar pattern. The airlines claim that the change in rates is necessary to meet increased costs and cite fuel costs as a major problem. CAC believes that no regulated air carrier should be allowed to introduce a succession of rate increases of this magnitude without proper public disclosure and justification for the need for such an increase. As transportation is one of the basic services of the Canadian economy and as it is the avowed policy of the government to combat inflation, the proposed tariff runs contrary to government policy and may therefore be prejudicial to the public interest. As an example, Air Canada's fare were increased by 10 per cent in February and a further 9.5 per cent increase is proposed, a mere five months later. This is a compound increase by less than 10 per cent in the last year. While the cost of fuel may have risen substantially as a percentage of the airline's operating costs, it could not have been so great as to justify an increase in tariffs of such magnitude in such a short time. As Canadian fuel prices have been below international market prices for several months, the airlines have been able to purchase fuel for the local use at a lower price than for international use. There is no evidence that this has been taken into account in the setting of local airline prices. Averaging fuel costs and setting rates accordingly may result in the local air consumer subsidizing international travellers, which CAC believes is unreasonable and unjust. The fact that six air carriers all filed their proposed tariffs on June 21, 1974 indicates that the increases may be in contravention of articulated government policy on combines and therefore contrary to the public interest. Other regulated companies, such as Bell Canada, have been frequently subject to detailed public scrutiny before the Canadian Transport Commission. CAC has also applied for leave to appeal the recent increases in passenger fares filed by CN-CP, but there have not been any appeals or formal objections made to the airline's tariff increases in the recent past. In fact, the airlines have been allowed to increase rates in relative obscurity. The Consumer's Association of Canada believes that no rate increase of the magnitude proposed (up to 20 per cent within 5 months) should be permitted without proper public justification at a public hearing where the voice of the consumer has a fair opportunity to be heard.

N.W.L.A. Asks for Stumpage Review

The Northwest Loggers Assn. today requested the Hon. Bob Williams Minister of Lands & Forests to review the New Stumpage Appraisal system in order to establish a more realistic system to avoid Saw Mills from closing down due to an average 22 per cent increase in stumpage rates in some cases 90 per cent on some timber sales, this is happening

at the same time as bad Market conditions. This spells trouble but trouble in the months ahead.

Rim Forest Products closed today, for a minimum of 30 days, this alone will displace many workers, Logging Contractors and Truckers. Action must be taken now before other Saw Mills in the Province close for the same reason.

Finning Board to Meet in Terrace

Finning's board of directors will hold their quarterly meeting in Terrace July 19-20 in conjunction with the expansion of company facilities here.

In attendance will be W.M. (Maury) Young, chairman of the board and chief executive officer; R.E. (Dick) Lane, president and Chief operations officer; R.C. (Bob) Biss, vice-president, parts and service; J.D. (John) Frazee, vice-president sales; V.K. (Vin)

Sood, vice-president, finance, and H.C. (Clark) Bentall, J.C. (Jack) Gilmer, T.E. (Tom) Ladner, and J.R. (Ross) Lemesurier, directors.

Arriving by commercial and company aircraft Friday, July 19, directors will hold business meetings in the afternoon and host a reception for Terrace employees and their spouses in the evening, both at the enlarged plant. Board meetings will continue

Saturday morning July 20 followed by a noon luncheon for civic and business leaders, hosted by Finning directors.

A reception and tour of the expanded facilities will be for invited guests in the afternoon.

This will be the third directors' meeting held outside Vancouver in conjunction with the company expansions. Other meetings were held in Cranbrook and Vernon.

W.M. 'Maury' Young, Chairman of the board and Chief Executive Officer.

R.E. 'Dick' Lane - president and chief operations officer.

Carl Cederberg is manager of Finning operations in Terrace. Carl joined Finning's engine department in 1970 and was engine sales supervisor before taking over as Terrace manager at the beginning of this year.

Finning Board of Directors

-W.M. "MAURY" YOUNG, Chairman of the Board and Chief Executive Officer. Since 1948, he has held various managerial positions with the company, assuming the Presidency in 1962. He holds a Bachelor of Commerce degree from U.B.C. and a Master Science (Management) degree from the Massachusetts Institute of Technology. In a senior reorganization in late 1973, he became Chairman of the Board and Chief Executive Officer.

-R.E. "DICK" LANE, President and Chief Operations Officer. Joined the company in 1946, and has served in various sales management positions. Prior to appointment as Executive Vice President in 1968, he was responsible for all marketing operations of the company. He was named President of the

company in 1973. -R.C. "BOB" BISS, Vice President, Parts & Service. Has been in the company for 32 years. In that time has served as Vancouver Parts Manager, General Parts Manager and Manager, Parts & Service. He was appointed Vice President on January 1, 1970.

-J.D. "JOHN" FRAZEE, Vice President, Sales. He has held several senior sales positions since joining the company in 1950. Appointed Vice President in 1966. He holds a Bachelor of applied Science degree in Mechanical Engineering (U.B.C.) and a Master of Science (Management) degree from M.I.T.

-V.K. "VIN" SOOD, Vice President, Finance. Joined Finning early in 1968, appointed Vice President in March, 1969. He is a Bachelor of

Science, a Chartered Accountant (India) holds a Master of Science (Management) degree from M.I.T.

-H.C. "CLARK" BV BENTALL, Director. President of Dominion Construction Co. Ltd., Vancouver, one of the province's largest building construction firms.

-J.C. "JACK" GILMER, Director. President and Chief Executive of CP Air, Vancouver.

-T.E. "TOM" LADNER, Q.C., Director. Partner in the legal firm of Ladner Downs, Vancouver.

-J.R. "ROSS" LEMESURIER, Director. Vice President and Director of Wood Gundy Limited, Toronto, one of Canada's largest financial houses.

Crown Zellerbach Report

Crown Zellerbach Canada Limited said today sales for the first half continued at record levels but sharply increased operating costs offset the sales gains, causing earnings to decline from a year earlier.

The company reported net earnings of \$11.9 million or \$1.49 per share on sales of \$162.2 million during the first six months of 1974, compared with net earnings of \$14.7 million or \$1.77 per share on sales of \$144.7 million in the first half of 1973.

President Robert G. Rogers said in an advance summary of results for the six-month period that market conditions during the period were generally favourable. He added that strong demand in the pulp, paper and merchandising operations helped to offset a

weakening wood products market that resulted primarily from a slump in housing starts in the United States.

He noted that the rising premium exchange rate on the Canadian dollar is a further adverse factor in export sales, representing a penalty on sales made in U.S. funds and weakening the company's competitive ability.

"The inflationary pressures noted in our first-quarter report continued to affect the company in the second half. Costs of

supplies, materials, transportation and labour have risen alarmingly, he said.

"In the third quarter, a major factor in the company's performance will be our success in dealing with production costs that continue to rise steeply.

"No significant changes in market conditions are anticipated, and we expect strong pulp, paper and merchandising performance. Any significant improvement in wood products sales will require a major increase in housing starts."

Elks Not Only Agents for Lottery

Provincial Secretary, The Honourable Ernest Hall, says that the British Columbia Lotteries Branch is the only organization in the Province authorized to distribute Lottery tickets for the Western Canada Lotteries.

Commenting on press reports which have appeared claiming that a benevolent organization in New Westminster had been appointed by the Provincial Government to act as the central distributor for tickets, Mr. Hall said, "It is just not true."

"Any non-profit society in the Province may apply for selling agency status to help raise funds for their activities," said the Provincial Secretary, "but the applications must be sent to the B.C. Lotteries Branch, Parliament Buildings, Victoria. The Lotteries Branch is the only organization authorized to grant permission to sell tickets."

Mr. Hall complemented the Elks in New Westminster and throughout the Province for their enthusiasm and their good works, but said that in fact their own application has not yet been approved, and the distribution of Lottery tickets to other organizations could not come within their terms of reference.

"Advertisements have been placed in all newspapers in the Province," said the Minister, "informing non-profit organizations of the opportunity to sell lottery tickets. The ads included an application form which can be used when applying for Agency status."

Tickets are due to go on sale in British Columbia on July 15th, with the draw for the first Western Canada Lottery to be held in October. A total of \$750,000.00 in prizes will be

awarded, with a top prize of \$250,000.00. Agencies licensed by the Lotteries Branch to sell tickets can earn up to \$10.50 for each book of 12 tickets sold. Tickets will cost \$2.50 each.

"I would like to stress, that if any organization had any questions about the Lotteries, they should contact the Lotteries Branch at the Parliament Buildings in Victoria," said Mr. Hall.

MOLSON "100"

Randy Kerr, a local driver, won the stock car trophy dash races on Saturday and Sunday.

Abb Giesbrecht-Stock Car "Star"

The Molson 100 lap stock car race was held out at the Terrace Speedway this weekend. Abb Giesbrecht was the star of the show in the super stock class as he took five races in his fuel injected Impala. Abb broke the track super stock record of 18.5 seconds with a run of 18.428. The stock car record was also broken this weekend by Randy Kerr, a local driver, when he bested the 20.5 run achieved by Thornhill Electric's car, with a best time of 20.369. For the first

time ever, an electronic timer was used on the track, so these times are really accurate.

After the time trials Saturday, a stock car trophy dash was run, followed immediately by a super stock trophy dash. They were won by Randy Kerr and Abb Giesbrecht respectively. Following these two races was the first fifty laps of the Molson's 100. Competition on the track was heavy. Some of the local boys who were really

putting up a fight were Sonny Blivenue, Rene Fagan and Dexter Archibald, but the competition from out of town was tough. Drivers came from Prince George and Quesnel just for this race. Sunday's racing was postponed by one hour because of poor weather conditions, but before long the sun started to shine and the boys had the track dry after a few laps. The format was the same as Saturday, and Randy Kerr and Abb Giesbrecht came out on the top once more. The racing culminated with the last 50 laps of the Molson 100 and Abb Giesbrecht won that easily. There was a \$50 prize to the fast time in the time trials for the stock cars and \$100 for the

super stock fast time. The stock car "fast time" money was won by Randy Kerr on Saturday and Abb Giesbrecht won the prize money for super stocks. In that heat run Saturday Abb Giesbrecht came in first, then Bernie Lewis, and third place was Dexter Archibald. Randy Kerr came in first in the stock car class, with Herb Quast and Danny McBryan close behind. \$1500 was split amongst the racers in the super stock class in the Molsons 100, and the stock cars competed for 40 per cent of the gate. There were only about 150 people at the races each day, so come on out and watch some really fine racing. Dates will be announced in the next paper.

Tenn Rec '74

Summer, as great as it is, can get to be a drag if you're too young to work and too old to go to the playground. So, the Terrace Parks Recreation Department wants to start a program for students between the ages of 13 and 16. This will be located at Skeena Junior Secondary field, running four afternoons a week from 2:00-4:00 P.M.

The program will be an outdoor one, with an emphasis on lifetime and team sports. These will include softball, European handball, soccer, touch and tackle football. If there is sufficient interest, clinics will be offered in golf, tennis, karate, drama, archery and crafts for the students. Side trips to areas of local interest are a potential for the program, but again these

trips will depend on participation.

The evening program is located in Skeena gym for students in the same age group. Sundays through Thursdays, 6:30-9:30 pm for sports such as basketball, volleyball and floor hockey. Caledonia Senior Secondary will be available for free gym time for older students Monday through Thursday from 6:00-9:00 pm. We are also interested in setting up a centre for students, along the lines of a clubhouse. Anyone with suggestions or willing to help with this project is welcome.

For further details on any of these programs, or suggestions, feel free to call the arena at 635-2042, and ask for Linda Purschke.

REDS LOSE IN KETCHIKAN

The Terrace Reds played well in Ketchikan this weekend but unfortunately lost both of their games. One of Ketchikan and one to Sitka. In the first game, played against Ketchikan, Dave Sharpe hit a three run homer. Larry Paulson added to the score with a grand slam, but the Ketchikan team protested it when Paulson failed to touch the home plate. Up to this point the score had been 13-9, and the grand slam would

have tied it up, the Reds had to settle for bringing the score up to 13-12. Ketchikan was pulling away from the start, though, when in the third inning they scored seven runs on a single hit. Ketchikan gave up a total of 15 hits and one error. Terrace gave up only eight hits but made six errors. The final score in the game was 17-12. In the second game, which wasn't as spectacular, the Reds lost 5-0 to Sitka.

Terrace Takes Both Games

The Skeena-Madigans ball team cleaned up this weekend when they won both games in their double-header against Houston. The score in the first game was 8-6, and that was a hard fought game. The second game, however, was a clear victory for the Skeena-Madigans as they beat Houston 7-1.

The Terrace team will be up against some tough competition this coming weekend when they face teams from Prince George,

Kelowna and Kamloops in a tournament to be held in Prince George. Some of the Skeena-Madigans players will be out with injuries but there is a strong possibility that George Kuich will be pitching and that means some strong competition for the other teams.

Watching Kuich pitch at one game, I saw him strike out fifteen consecutive players. The games should be pretty exciting.

X STILL UNDEATED

Wayne Bridges failed to take the West Coast Championship from Mr. X. Friday night at All Star Wrestling match held in

Terrace. It seems that both Bridges and X were disqualified when they both stayed out of the ring for the twenty second count.

Two Ball tourney

There will be a mixed two ball tournament out at the Thornhill Golf and Country Club this Saturday, July 20th. All it costs is two dollars for the man and the lady brings a box lunch.

Tee off time is 6 p.m., and prizes will be awarded for low gross, low net, and hidden hole. This is the first mixed social event of the year, and the tournament will be started with a "shotgun" start. Registration will be taken right up to tee off time. Come on out and have some fun.

FABULOUS FIGHTS

Jack Dempsey knocked out Gene Tunney down to the canvas for 14 seconds but still lost their championship fight in what has become known as the "Long Count" in Chicago, Sept. 9, 1927.

A list of 8mm and 16mm boxing and sports films for home use is available free by writing to Ring Classics, S.N. Box L, Hauppauge, New York 11787.

Fynn-Rookie of the year

The Herald has learned that Terrace Centennial right winger Mike Fynn has been named Rookie of the Year by the Pacific Northwest Hockey League. Fynn won the hearts and admiration of fans throughout the Northwest during the season with his exciting ice long rushes.

Playing all but four games last season, the seventeen year old native Albertan scored 34 goals and added 30 assists to the

Centennials total points. As well he showed he wasn't about to back down and picked up 154 minutes in penalties.

This was Mike's first year in Junior B and it may be his last. With his style of play, he's bound to hit the Junior A ranks in a very short time. Mike told the Herald that the plaque he won was his first major hockey award other than team trophies during his career in minor hockey.

Mike Fynn - Pacific Northwest Hockey League Rookie of the Year.

Television, stereo, tape units geared to lifestyle of couple

Even though today's new-lweds are truly individual in lifestyle and dress, practically all of them share a love for sights and sounds that are electronic.

That's why color television... the stereo record changer... and the tape player or player/recorder... are high on the list of desired wedding gifts that will help the modern bride and groom furnish their first home together.

In choosing a gift for new-lweds — whether it is for individual, office or any other group giving — space limitations for the young couple's apartment or house should certainly be considered.

For example, in color TV, the choice ranges from an array of compact portables and smartly designed table models to larger instruments such as the lo-boys, full-to-the-floor consoles, and all-in-one console combinations.

Remote Controls One of the features to look for in this year's color TV's is: the super bright color picture tube (the new super Chromacolor tube from Zenith, for instance, comes in a trio of different screen sizes — 16-, 18-, and 25-inch diagonal). Other features are automatic one-button color control; easy channel selection; an increased use of solid state circuitry, plus plug-in modules and components.

The convenience of remote control is important to many viewers. For example: a one-button hand unit in the Space Command 100 system turns the set on and off and changes VHF channels. Its cousin, the three-button 500 system, adds a volume adjustment — to two different levels, and also mutes sound. The 600-X, a many-function control, turns the TV on and off, changes VHF and UHF channels, adjusts volume to three levels, and completely mutes sound while the picture stays.

This year, furniture styling has moved into table models, with Mediterranean added to modern designs. Among consoles, innovative styling such as the campaign chest and also white TV's on a curving pedestal base are appearing... and proving popular. For mixing or matching purposes, the three "constants" — Modern, Mediterranean and Early American furniture styles — are still favorites on the home scene.

Match to space If you're planning a stereo purchase as a gift, be sure also to match the unit to the space available for it. This will help you decide between a modular or console system.

Modulars have three basic pieces — the main unit (an amplifier, record changer, radio, tape, or a combination of all three functions) and two remote speaker units. They are flexible in decorating, fitting into large rooms as well as small apartments. Some users utilize them outdoors on the patio wherever the climate is kind.

Console stereo makes a contribution as a major

COLOR TV FOR TWO and more in the new home. Wedding gift idea that's welcome anywhere is this Mediterranean style decorator-compact, the Milano from Zenith. Set offers such electronic advances as the super-bright Chromacolor picture tube, automatic one-button tuning, over 90 per cent solid state circuitry. Matching base is optional at extra cost.

NEW FOR AT-HOME ENTERTAINING. This modular 3-piece electronic package offers three different services: fine reproduction of records, AM, FM and Stereo FM radio reception, convenience of 8-track tape cartridge playing. Modular speakers and main unit of this Zenith instrument are matched and balanced to direct full-depth stereo sound toward listeners. Walnut color cabinet.

furniture piece in the home. There's a wide-ranging choice available in cabinet styles, performance features and add-on-later-if-you-like options.

Full tone range Basically, what you are looking for in stereo is an instrument that will reproduce the full range of sounds pleasingly — through quiet passages and full orchestral effects. Audio engineers call this dynamic range. Your ear will clearly

recognize it as you gift-shop the music and TV store.

But whether that young couple you are gifting will be living in a one-room apartment or an estate-type house, you'll be able to find an electronic instrument that is sized for the particular setting you have in mind and specifically designed to add at once to the function and decor of the complete room arrangement.

Sterling elegance

Elegance means something different to everyone. To new brides, chances are it means "Eloquence" a richly crafted pattern by Lunt silversmiths from which this sterling coffee and tea set has been adapted.

Tennis Courts Cleaned Up

Dear Sirs:-

On the evening of July 7th, 1974, five of Terrace's more hearty citizens undertook a very hazardous and equally thankless mission. Armed with only the bare essentials and with provisions for no more than two hours they shunned all warnings by their friends and relatives and proceeded to try to improve the conditions of the Riverside Tennis courts. You may say to yourself, "Why would anyone do such a thing?" Probably these brave souls would answer by comparing their mission to that of climbing a mountain for the simple challenge and the satisfaction of being the first and possibly the last to accomplish such a feat.

These fearless pioneers disregarded the threat of the herds of blackflies, the broken glass, the nails, and a particularly aggressive flock of hungry ants, to patch the fence and clear the playing area.

Although the cleaning of the courts was a fairly momentous occasion and will probably be remembered for generations these five want no awards, congratulations, parades down main street, or holidays in their honour. What they do want is to see the courts kept in reasonably good condition while we wait for new ones to be completed.

Despite the poor quality of the surface and enclosure the courts are usable and it would be greatly appreciated by all tennis players in Terrace is the people who feel they must smash beer bottles and damage fences could redirect their energies and perhaps buy a tennis racket and learn to "smash" a tennis ball instead of an "Old Style" bottle.

Tennis is growing in Terrace, probably because of its inexpensive equipment and its exercise value. However it is very annoying to have to plan on three hours for a tennis match; two hours of playing time and one hour of clean-up to make the surface safe to play on.

Let's keep the tennis courts free of any more damage.

Thank You
Pat McDonald
Terrace Tennis Club.

As in ice hockey, action can be exciting in skeeler version of game. The skills required for skeeler hockey are nearly identical to those needed for ice hockey. Same basic equipment is used except that a tennis ball takes the place of a puck.

Skeeler summer hockey league new Big Brothers' experiment

TORONTO — A unique experiment is currently being undertaken by Big Brothers of Toronto.

They have formed a skeeler hockey league for "little brothers" between the ages of 7 to 14. Big Brothers are men who devote several hours a week to fatherless boys, and are responsible for getting the boys to games, plus coaching and refereeing.

Skeeters are an English invention which have caught on rapidly in the Soviet Union and other European areas. These new roller skating devices are capable of executing the same maneuvers as regular ice skates, making it possible to practice skating where no ice is available. Three wheels are lined up along the centre of the skate much like a skate blade. Level asphalt, tile or wood surfaces are best for skating.

The skeeler hockey league for Big Brothers in Toronto is hopefully the first step towards establishing Big Brother skeeler leagues right across Canada. If the league is a success in Toronto, it could go nationwide

next year. The league is designed to allow "little brothers" to compete in an organized activity during the summer months.

Initially, four teams are involved, with skeeters and uniforms provided by Rose Brand

Pickles.

The skills required for skeeler hockey are nearly identical to those needed for ice hockey. The same basic equipment is used except that a tennis ball takes the place of a puck.

A Terrace boy, Greg Shannon, has spent the last year with the Terrace Centennials in a position that resembles, in some ways, that of a public relations man. Now Greg is leaving Terrace to take up a similar position with the Merritt Centennials.

About a month and a half ago, Fred Schweitzer contacted Greg and offered him the job. Greg's duties will involve PR work, writing for the local paper and touring with the team. Terrace may not be too well known for its hockey players yet, but we sure do turn out some good public relations men.

Weat the Herald would like to Wish Greg Luck in his new position.

Mr. & Mrs. G. B. Peters wish to thank their many customers and friends whom they had the pleasure to serve while they had the Agar Red & White Store. They also wish the new owners, Mr. & Mrs. H. Mankas the very best. Mr. Peters came to Terrace in February 1951 and was the pioneer of Agar Avenue, west of Kenney Street. He built the first building in that area. With the exception of a few years away in Kelowna he has been a resident of this area since that time. Mr. Peters has also been active in the Menonite Brethren Church, and in 1963-64 served as a councilman on the municipal council.

Mr. and Mrs. Peters are leaving for this week for Abbotsford where they will be making their home. So farewell and best wishes to all in Terrace.

G.B. Peters

LETTER FROM MASSET, QUEEN CHARLOTTE

By Elvira C. Bryant

For several days the harbour was filled with fishing vessels owing to the North West wind creating what is termed a 'jump'. This same wind brings good weather to Masset and vicinity, and is one of the few times we enjoy sunshine while places like Vancouver and Victoria are being deluged with rain. But this morning many of the boats have left for another fishing trip as yesterday afternoon the wind changed to the South West. Once again it is our turn to have the inevitable showers, which does frustrate the people wanting to obtain some semblance of a tan.

This is the distinct advantage of having hobbies that can be carried on indoors—one never minds inclement weather. With a little imagination one can relive any particular day from a coloured photo. This week I am attempting to put on paper the beautiful blues of Kamloops Lake as contrasted to those rolling hills tinted with so many various shades of sun-burnt sage and resin.

The first washer and also on the magnificent view of Skaha Lake which taken in April of this year, but which will probably never come to the original! Meanwhile the neighbors in the many various shells and resin work. For some strange reason all three families who have lived in that apartment during our one year here, have all kept busy with the same hobby. This time it is less hazardous for anyone on this side, since the work in is not being done upstairs, and so the obnoxious smell is not seeping down and in.

When our July visitors arrive, we will more than likely visit many of the beaches and do a little collecting ourselves. Agates can still be located on some of the sites close by, but far larger ones are available out in the Rose Spit area or along the West Coast. It might be timely to bring home a few more of the flat slabs in which are imbedded shells and other sea remnants, since we will need more than the two on hand for a future fireplace.

There are many books on the shelves yet to be read also at the moment I have almost completed a second book by Robert W. Krajenke on Edgar Cayce's Story of the Old Testament. This one is entitled A Million Years to the Promised Land—Genesis through Deuteronomy. One day soon I must get to a review of Kathleen Dalzell's Book 2 the Queen Charlotte Islands, for the Editor of the Queen Charlotte Observer. One way or another it will still involve me with past history!

Judging by the steady increase in prices, it is understandable why there is such a demand for increased wages. Two weeks ago cantaloupes were 69 cents each—two days later much smaller ones were marked at 79 cents each, but today the new shipment is marked at 89 cents. Of course this is only one item, but for people attempting to eat nutritious meals that contain fresh fruit, such as increases cannot be overlooked.

It is good to see some of the young people working this

Hazardous Products Puppet Shows

This summer, the Department of Consumer and Corporate Affairs is again conducting a program of puppet shows for children across Canada, as part of the student summer employment program.

The purpose of the shows is to reach children from five to ten years of age with basic safety rules. Through the visit of children from outer space, Binky and Doinkel, who are not aware of the possible dangers on earth, children in the audience will be exposed to rules for home and bicycle safety.

The program concentrates on the symbols which are used on labels of household chemical products to identify whether the product is poisonous, explosive, corrosive or flammable. These symbols are required by

the Hazardous Products Act, which is administered by the Department. At the end of the show, the children will receive safety stickers and an activity book which relate to the show.

The four students working in teams of two in British Columbia are Anubha Parry, Carrie Clarke, Deanna Kwan and Pamela Third. They will be visiting playground areas in Vancouver and the surrounding municipalities, the lower mainland, Vancouver Island, the Kootenays and the central northern B.C. area up to Prince George and through to Prince Rupert.

The puppeteers will present the program in Terrace on Friday, August 16 at 2:30 pm in the Caldonia High Gym and on Monday, August 19 at 10:00 am in the Cassie Hall Gym.

and pen along to record some of the past. But one of the young adults from Haida has been allotted just this type of assignment, so we will just hope that this young woman will keep busy this summer taping these stories.

The students working under the summer programme are doing such jobs as painting, repairing, making fences and cutting brush. A total of five have been employed, both male and female. It seems a worthwhile venture for other communities to follow. Particularly with a cooperative government.

The owners of other boats have been reporting the presence of draggers where they are not supposed to be. Should the new two hundred mile limit be firmly established it is to be hoped a more sincere effort will be made to ensure such violations do not continue. Perhaps the 'new voice from Skeena' will get busy on this matter for the benefit of the northern fishing people. There is also little point in building new canneries if other countries are going to harvest our supply.

Ready to enjoy

Ideal for the new "entertaining" bride is this "Look-See" Slice and Serve Set from David Douglas company of Sheboygan, Wis. Useful for serving party snacks from cheese to meat to pastries to canapés, the set, contemporary in design, is packaged in a nifty gift box with removable label.

Moslem legend holds that Abraham was at 15 months, the height of a 15-year-old.

The Canadian Federation of Business and Professional Women's Clubs

It's all business - nothing radical (in the modern idiom) in the Canadian Federation of Business and Professional Women's clubs. Although the prime concern is the economic status of women, the 5,000 members across Canada work diligently to achieve the goals through the most effective channels - the federal and provincial governments.

What are the goals of the Federation? A Good example is the recent noteworthy case of Janette Lavel - the Human Rights Committee supported her to the top - to the Supreme Court - no they weren't successful - but their involvement brought the case to the public.

Beth Aulin of Kamloops, completing her two year term as National President, Four hundred delegates will meet with the special purpose of deciding on a major project for 1975, designated by the United Nations as International Women's Year, to vote on resolutions urging the Federal Government to ratify the United Nations declaration of Human Rights; - to amend the Canada Pension Act to eliminate discrimination in all provisions of the act. These and many other important resolutions will form part of the business sessions of the Conference.

On Tuesday, July 23rd, the Government of British Columbia will host a luncheon for the delegates at which the Guest Speaker will be the Honourable Phyllis Young, Minister of Consumer Services. Dr. Katie Cooke, Chairperson of the Canadian Federal Advisory Council on the Status of Women will be the keynote speaker at the Final 24th Biennial Convention. Banquet and Official Closing, Under the leadership of Mrs. Friday July 26,

From July 22nd to July 26th, the Hotel Vancouver will be the setting of the Canadian Federation of Business & Professional Women's Clubs 24th Biennial Convention.

MR AND MRS FRANK HOWARD, photo graphed last July 8 following the counting of ballots. The Howards have departed for Ottawa where Frank has a few matters to take care of before returning to take up residence in this area in about two weeks time.

NEEDS OF THE PHYSICALLY HANDICAPPED PUBLIC MEETING

The Advisory Committee on the Needs of the Physically Handicapped to the Minister of Human Resources will be visiting Terrace on July 20th, as part of their continuing tour of the province.

The purpose of the tour is to accept briefs, hold open forum meetings and view facilities and services presently available to the physically handicapped.

The general topics of discussion will include:

1. Architectural barriers and housing
2. Income security
3. Employment, education and recreation
4. Personal attendant care and health care benefits
5. Transportation

Meetings are open to the handicapped, rehabilitation workers and support service personnel, as well as interested members of the general public.

Those who have a prepared brief are urged to make their submission early, if possible, although briefs will also be accepted at the meeting itself. Prepared briefs should be submitted in advance to:

Ms. Merle Smith
Consultant on the Needs of the Physically Handicapped
Department of Human Resources
Room 15
800 Cassiar Street
Vancouver, B.C.

Briefs received while the group is touring will be forwarded to the Chairman, Dr. William Buckler, in transit.

Inquiries can be directed to Ms. Smith at 299-9131, in Vancouver.

The Terrace meetings will be held at:
Terrace Hotel Green Room Saturday, July 20, 1974
4551 Greig Avenue
at 10:30 a.m. - 12 noon / 1 p.m. - 5 p.m.
MEETINGS WILL BE INFORMAL IN STRUCTURE

DR LAWRENCE E. LAMB

Hysterectomy won't hurt sex activity

By Lawrence E. Lamb, M.D.

DEAR DR. LAMB — I would like your opinion on a woman who has to have a hysterectomy for health reasons. So many of my friends say a woman who has had one isn't any good sexually. Would you please comment on this? It would put many of these women's minds at ease. Also, is the woman any different when she has the operation? Are other women better partners who have not had the operation? Also, do men prefer women who have not had one?

DEAR READER — I get a lot of letters asking about this. The truth is the uterus has almost nothing to do with sexual activity. It is connected to the top end of the birth canal and provides no important feeling for the woman. It has no effects at all on the man. Most men wouldn't even know a woman had had such an operation.

So the answer to the rest of your questions should be obvious. Women are just as good a partner, or even better, after surgery. Why better? Since they no longer need fear pregnancy, they often are more relaxed. For the same reason a man, if he knew, might prefer a woman who didn't have a uterus.

DEAR DR. LAMB — I've just had surgery on my neck for hardening of the arteries. The blood could barely drip through. Can you help me with my diet so this won't recur?

Is it all diet that causes hardening of the arteries? It is a very expensive operation. I had two on the neck and chest, so no more.

DEAR READER — The same diet principles apply to preventing fatty deposits in the arteries in the neck as those for the brain and heart. The disease throughout the body is the same.

For additional information you may want to read the booklet on balanced diet that I have prepared. Send 50 cents to "Balanced Diet," in care of this newspaper, P.O. Box 1551, Radio City Station, New York, N.Y. 10019.

The best general recommendation is to limit calories to correct or prevent any excess body fat, maintain physical activity to help you do this. Limit fat, particularly saturated fat and cholesterol. I would suggest seeing to it that you get a third of your main dishes from poultry, a third from fish and a third from lean beef. The rest of your food should include, or be made from, nonfat fortified skim milk or the dry powder, vegetables, fruits and cereals. You should use polyunsaturated oils in cooking, such as safflower oil or corn oil. Broil or boil, bake or roast, but try to eliminate frying.

DEAR DR. LAMB — Is it safe to eat raw eggs? My family loves a refrigerator pie I make with three eggs in it, and the mixture is uncooked. A friend of my husband's developed a long-standing illness after eating a large number of raw eggs on a dare.

My girls have developed a dislike for their morning scrambled eggs, so I try to get some eggs in their diet, even if it's in the pie they like once in a while.

DEAR READER — No, I don't approve of eating raw eggs. It can be perfectly safe, but they are a common source of bacteria that cause a form of food poisoning.

Why are you so determined to force your family to eat eggs? They do not contain a single nutrient that can't be obtained from other foods. The yolk of the egg is the most common high-cholesterol food in our diet. The Inter-Society Commission on Heart Disease has suggested that the daily cholesterol intake should be limited to 300 milligrams a day. A single egg yolk often contains 250. A small amount of cholesterol, which you do need in your diet, is in meat and animal products.

Dr. Lamb welcomes questions from his readers, but because of the volume of mail he cannot answer personally. Questions of general interest will be discussed in future columns. Write to Dr. Lamb in care of this newspaper, P.O. Box 1551, Radio City Station, New York, N.Y. 10019.

CANCER FACTS

TREATMENT BY DRUGS

Chemotherapy — treatment by chemicals — offers considerable hope in the battle against cancer when used in conjunction with immunology.

Chemotherapy alone is not expected to produce a cure for cancer, but if some means were found to raise the immunological response of the body, a drug might administer the coup-de-grace to the tumor.

It's a matter of the relative strength of opposing forces: A drug, to be effective in cancer, should wipe out all

the cancer cells. This is rarely possible because there are too many of them. They constitute an army numbering in the millions and growing constantly.

If immunological methods—through the use of a vaccine—could rally the body's normal defence and reduce the cancer cells to a reasonable number, chemicals might be able to finish the job.

Pamphlets and information about cancer can be obtained free by writing to: B.C. and Yukon Division Canadian Cancer Society, 896 West Eighth Avenue, Vancouver or 857 Caledonia, Victoria, B.C.

Dental topics

New Cements May MAKE BRACES COMFORTABLE

New cements being tested may soon replace the need for some of the metal bands dentists now use to anchor dental braces in most cases of treating crooked teeth, says the Canadian Dental Association.

Laboratory tests have already shown that new plastic cements stick to the teeth better and are comparable in strength to the conventional ones in

Clinical trials are underway by dental scientists to find how well the new cements will work in the mouth. Besides having the potential to replace unsightly bands, the new cements appear to be better than conventional ones in preventing mouth fluids from seeping around and undermining fillings.

They are also less irritating to teeth. Conventional cements need liners in some cases to protect the teeth.

Another advantage of the new bonding agents is that they are easy to take off. A quick twist with a dental instrument can snap most of the bond off. The rest can be polished away in a routine cleaning.

—Canadian Dental Association

CONSUMER CORNER

ENCYCLOPEDIAS

If you are considering purchasing an encyclopedia you should ask yourself the following:

Is the encyclopedia published by a company that is reputable, experienced, and well established?

Does it have a permanent editorial and art staff?

Does it have an Editorial Advisory Board made up of nationally known educators and scholars?

How authoritative is it?

You can determine this by looking at the list of contributors and consultants at the beginning of the first volume.

Dear Anne Lander: I am so disgusted with you this minute I could wring your neck. I just read your cockeyed answer to that pregnant teen-age girl, whose guy ran out on her. You told her to give her baby a break and allow some loving couple to adopt it.

I am an unwed teen-age mother who kept her child against everyone's advice—my parents, our minister and the social worker. It saved my sanity. She is the only thing in this world I give a damn about. If I had listened to all that creepy advice that was poured on me, I'd have been in the booby hatch by now.

I hate men. They are all liars and cheats. I wouldn't marry Prince Charles if he got down on his knees and begged me. I'm going to raise my little girl alone.

I've done more living in 17 years than you have in your 55 or whatever you are. I'll be that picture of you in the paper is at least 20 years old!

I don't know where you get off acting like you know everything. I'll bet you didn't check with any of your so-called authorities when you coughed up that dumb answer. You owe every unwed mother in the world an apology. Starting with me.—Did it and I'm Glad

Dear Glad: Don't hold your breath waiting for my apology, or for Prince Charles to ask your hand, either, I don't think you're his type.

Please read the next letter. It was written by one of my 'so-called authorities.'

Ann Landers

Dear Anne: As a social worker who has spent a good many years working with unmarried girls, waiting for their babies to be born, I want to thank you for your excellent advice. I hope and pray you got through to some who are 'undecided.'

When an unmarried girl makes up her mind she is going to keep her baby it is usually due to an underlying feeling of guilt, a need to atone for her 'sin' by devoting her life to the child. Most of them are mere children themselves—emotionally, if not physically. Some unweds are determined to keep their babies just to spite their parents who beg them not to. Others hang on, in the hope that the baby's father will like the baby after it is born and marry them, after all. None of these reasons are valid or realistic.

And there is another aspect. Why should a girl be penalized throughout her entire adult life because of an early mistake? Shouldn't she have the opportunity to finish her education, get a job and enjoy

some freedom before she settles down to raise a family? I've seen enormous resentment develop against innocent children because their mothers suddenly realized they missed so much.

Please, Ann, keep telling unwed mothers that the noblest act they can perform is to give up their babies. Every child deserves to have a mother and a father who can give him love and the kind of life that will prepare him for stable adulthood.

If my letter changes just one girl's mind it will have been worth the time and trouble it took to write it.—With you all the way

Dear With Me: Thank for your assist. Your letter was one of many from social workers who expressed this point of view. I even heard from some unwed mothers who said they are sorry they kept their babies. I hope somebody out there listens before it is too late.

Confidential to Dick Hindsdale: Please let me hear from

Dishwashers save 'creativity in the kitchen' from clean-up doldrums

"What's for dinner dear?"
"Marshmallows, meatballs and heart-shaped dumplings, honey."

And so it goes with the new bride trying valiantly to please her new husband with her creativity in the kitchen.

Exotic dishes are created from scratch or from his mother's favorite recipe to please her new man.

If he is an understanding husband, or more importantly a loving husband, he will grin and bear it while she finds her way in the kitchen.

Fortunately for many brides convenience foods are available to avoid some of those initial mistakes, but inevitably the bride tries to impress her husband with her own creation.

Maybe it is as simple as scrambled eggs or as difficult as a soufflé, but it is bound to please him that she took that extra effort to create a marvelous dish especially for him. However, in creating that marvelous dish she may have created a problem for herself with a stack of dirty dishes and pots and pans waiting for her in the kitchen.

Even the best cooks are faced with this problem after a meal, but for the young bride who has just made her man romantic with a great candlelight dinner it will be discouraging if she must return to the kitchen for the dishwashing chore.

Even after a successful meal this can take the joy out of the honeymoon.

A solution to this gloomy situation is offered by Gen-

Whipping up a fancy casserole to please her husband, this young wife is happy knowing that once the meal is over the GE Potscrubber dishwasher under that cherrywood cutting board will take care of the dishwashing chore.

eral Electric's Potscrubber dishwashers with their powerful, brushless washing action that handles regular dishes with ease and literally scrubs even baked-on food soil off pots, pans and casseroles.

Potscrubber dishwashers can be built into a home or are available as portable units which can be easily converted to built-ins later.

They feature 3-level wash action, Tuff Tub™ interior, adjustable upper Dial-A-Level Rack, and sound insulation for quiet operation. Potscrubber dishwashers are as forgiving as most husbands and enjoy the "challenge" of "marshmallow meatballs, heart-shaped dumplings" and other dishes that turn pots and pans into disaster areas.

Rainbow Bombe

4 3-oz. net weight servings Frozen Dessert
2 tsp. Chocolate extract
2 tsp. strawberry extract
2 tsp. peppermint extract
Red and Green food coloring

Spread 1 serving of the Frozen Dessert in mold. Mix 1 extract into each of the remaining servings to make three different flavors. Use a few drops of red color for the strawberry and green for the peppermint. Layer each flavor firmly in the mold. Freeze for 2 hours, turn out of mold by holding it in hot water a few seconds. Divide into four equal portions and serve. Makes 4 servings.

Story Lady at the Library

This is the first summer that we are continuing our Saturday storyhour program at the Terrace Public Library. The program starts at one in the afternoon and all children are encouraged to attend.

The story lady, Mrs. Julia Johnson is very excited about

this phase of library work and is currently getting the young into dramatization of popular children literature.

There are other activities for them too, like poetry reading, play and music listening. Bring your children next Saturday.

George Washington Carver found over 100 new commercial uses for the sweet potato.

Wedding Announcement

Mr. and Mrs. Art Park of Terrace, B.C., are pleased to announce the forthcoming marriage of their second daughter, Joanne, to Alan Jacques, eldest son of Mr. and Mrs. Roy Jacques of Terrace, B.C.

The wedding will take place at the Knox United Church, in Terrace, on Saturday, August 17, 1974 at 5:30 P.M.

Thornhill meeting

The Administration, and Planning Divisions of the Kitimat-Stikine Regional District is planning a general meeting to be held in the Thornhill Elementary School on Wednesday July 17 beginning at 7:00 p.m.

The purpose of this meeting is to discuss the problems facing residents of the area generally. It is planned to divide those attending into small groups to discuss many problems areas as they are perceived and to

attempt to establish possible solutions in regard to community development.

Olof Heildund of Sweden holds the record for not putting his foot down. He stood on one foot for 5 1/2 hours.

The bride's world remains traditional

Newlyweds-to-be continue to plan for formal weddings, joyous honeymoons, comfortable first homes together

During a period of changing mores, rock concerts attended by hundreds of thousands, and greater independence among youngsters, it may come as a surprise to some people that the 1973 bride, with few exceptions, will want as traditional a wedding as her grandmother had.

Strangely, it is the older generations who seem to believe that the traditional ideas of weddings are passing and younger people have vetoed the idea unanimously.

Always the unconventional few

True, there are communes and unconventional weddings. Recently, one couple was married in Central Park in New York, and the city was deluged by over 400 requests from others who wanted to follow suit. They were refused permission, but these are the exceptions who are only noticed because their exhibitionism makes them stand out from the millions of others who are marrying in more traditional ways.

The great majority of brides-to-be look forward to a formal wedding and spend considerable time planning it. They dream of a long white formal gown complete with flowing veil, a beautiful bridal bouquet, and everything the word "wedding" brings to mind—bridesmaids, striking in their dresses, the groom and his groomsmen in formal attire, music, floral decorations and happiness.

Sweet dreams

They dream also of their wedding reception, filled with a joyous spirit of dancing, a fine meal with family and friends gathering to help the new couple celebrate this most joyous occasion.

Today's bride-to-be begins her planning almost a year in advance. Hand in hand, and mind in mind the future Mr. and Mrs. carefully plan their honeymoon and their home together.

There were 2,300,000 marriages in 1972, and this figure is estimated to climb an additional 190,000 within the next three years. Marriage is definitely not on the wane. In fact, today's brides and grooms may be more serious about marriage than the previous generation.

"Aware" generation

They have matured during the Vietnam War, they have fought for civil rights,

Today's bride is as emotional, as proud and as concerned about her wedding as was her grandmother. Perfect love and devotion — the cornerstones of marriage — are the ideals of the newlyweds. Photo and jewelry, courtesy of ArtCarved.

they have confronted the "Establishment" on the campus, they have watched marriages dissolve in divorce, they are aware of the women's liberation movement and they have had their voices heard at the polling places. They may indeed be

more alive to what the union of two people really means. Their new independence is prized. They are deeply appreciative of all the fine wedding gifts they receive from family and friends. Today's new brides may prop-

erly be called the "detail generation" for never before have there been newlyweds so concerned with placing every piece of home furnishings precisely to highlight and accent the surrounding decor.

Almost half of them have been to a four or two year college, and, along with the general knowledge gained, they have come to respect the individuality of others.

Then, too, housework is no longer considered unmanly. For this bride and groom can be thankful since it will allow them to share in a richer, fuller life.

Since they are better educated and more aware of the world and what's happening, a greater number of brides will continue to work after marriage. Only one-third will remain at home.

Increased interest

The new couple will also have an increased interest in their home. They will be working harder than any generation before to insure themselves a comfortable environment both inside and outside their dwelling.

A surprising forty percent of the new couples will have household incomes of more than \$10,000 a year at the very beginning of their life.

Most young couples will first rent an apartment or a house, but more than fourteen percent will own their own homes. They expect to lead the good life, for they were brought up in an affluent society and have the determination to work hard to maintain and increase the level of comfort to which they have become accustomed.

In the months preceding and following their weddings, they account for \$5 billion in retail sales. Love and peace is their thing. These are the couples who create their own vows

of loving each other forever. Most clergymen of all faiths approve of this, for they believe it makes the wedding ceremony more meaningful to the bride and groom. Because of their involvement in the service, the clergy feels that they are off to an excellent start in marriage.

Everything comes together — the increase in marriages, the awareness of today's brides and grooms, their feeling for traditional forms but with a distinct personal difference.

Some people believed that thunder was caused by horses' hooves.

The Guru and the Grape

The gentleman with the book tucked under his arm is Leon D. Adams. It's his book: 'The Wines of America', a massive compendium of grape lore. The gentleman raising his glass is Donald Campbell, Executive Vice-president and General Manager of Andres Wines (B.C.) Ltd. It's his wine: one of three new table wines from Andres, Ruby Cabernet, Chenin Blanc and Grenache Rose.

Thoughts

From The Living Bible

Leon D. Adams, author of 'The Wines of America', and arguably the continent's outstanding oenologist, flew from Sausalito, California, to Vancouver, B.C., for the debut of three new Canadian Wines. The wines, created by Andres Wines (B.C.) Ltd., are Ruby Cabernet, Chenin Blanc and Grenache Rose.

They were introduced to writers, broadcasters, winemakers and buffs at a Bayshore Inn reception. Author Adams praised North American wines. "The average quality of California wines is the highest in the world," he said, "and the average quality of B.C. wines is higher than the average quality of French wines."

Andres wines which began in B.C. are now sold in all parts of Canada, with the recent acquisition of their fifth winery in Quebec.

"I have already told you, and you don't believe me," Jesus replied. "The proof is in the miracles I do in the name of my Father. But you don't believe me because you are not part of my flock. My sheep recognize my voice, and I know them, and they follow me. I give them eternal life and they shall never perish. No one shall snatch them away from me, for my Father has given them to me, and he is more powerful than anyone else, so no one can kidnap them from me. I and the Father are one."

Lower Road Speeds

Urged By B.C.A.A.

Thousands of Canadian lives could be saved if traffic speeds were lowered as they had been in the U.S.

This was stated today by the president of the B.C. Automobile Association, Mr. George Bradley, who said the relatively good record of the normally deadly July 4 holiday in the U.S. has proved that motorists driving at no more than 55 m.p.h. live longer.

"Automobile accident deaths in Canada have been climbing by about 20 per cent a year and account for approximately 42 per cent of all accidental deaths.

"Last year B.C.'s tragic toll was 800 road deaths. A mandatory speed limit of 55 m.p.h. would reduce much of the present highway mayhem and slow this year's growing figures."

Mr. Bradley said he favoured both mandatory speed limits and seat belts use.

"Whole nations have proven that properly worn seat belts save lives and limit traffic accident injuries. It is time we were inconvenienced a little to ensure we do not become costly fatality statistics.

"At present less than 30 per cent of Canadians actually use seat belts, and that after much publicity. It's time legislation was enacted to require the use of safety belts where fitted," he added.

Now you can turn \$2.50 into \$250,000!

With a Western Lottery ticket! They're on sale now from any authorized service club, charity group or similar non-profit organization. Also from the Provincial Government agent in your area. Alternatively, you can complete and mail the form below.

Souvenir Collection of Canada's Stamps

Entertainment

The 1974 Souvenir Collection of Canada Standard Postage Stamps will be on sale beginning the last week of July in most Post Office outlets, the Canada Post Office announced today.

This Souvenir Collection contains the 1972 High Value Definitives (Vancouver \$1 and Quebec City \$2), The 1972 Medium Value Definitives (Forests 10 cents, Mountains 15 cents, Prairies 20 cents, Arctic 25 cents and Oceans 50 cents) and the 1973-74 series of low value definitive stamps featuring her Majesty's Queen Elizabeth II and seven former prime ministers.

The Canada's standard stamps, depicted in this souvenir booklet, reflect the many facets of our national life by featuring our historical heritage, the majesty and diversity of our natural terrain and our vibrant urbanized society.

The stamps contained in this 32 page bilingual booklet are packaged in a cello-pack and have a face value of \$4.56. The booklet, and a package of stamp mounts, sell for \$5 and is enclosed in an attractive envelope ready for mailing.

New Canadian Stamp

Postmaster General Andre Ouellet today announced the issue of an eight cent stamp commemorating the centenary of the invention of the telephone by Alexander Graham Bell.

The stamp, to be released July 26, depicts three models of telephones: The Gallows Frame, the Pedestal or Daffodil, and the Contempra Phone, each representing a development in the history of the telephone.

The Gallows Frame, conceived in Brantford in 1874, was introduced as an experimental model in Boston in 1875 and was the world's first telephone; the Pedestal or Daffodil, which was introduced in 1900 and later developed as a dial model, is regarded by many as being symbolic of all telephones; and the Contempra Phone, introduced as a dial phone in 1968 and as a touch in 1969, was the first whose conception, design and manufacture is entirely Canadian.

"This stamp issue honours not only the invention of the telephone by Alexander Graham Bell, but the creative thought processes that go into such an invention," said Mr. Ouellet.

In 1874, Bell a young teacher for the deaf in Boston, invented the telephone while he was visiting his parents in Brantford, Ontario.

For this issue, the Canada Post Office has declared Brantford the site of official First Day Cancellations. Customers are requested to send their own First Day Covers to Ottawa where stamps will be affixed and the orders processed. The covers will be shipped in bulk to Brantford for the cancellation and returned to customers from that location.

NEW DAY

Starting July 15th at the Red D'or Cabaret is New Day, a pop-rock group from Victoria. NEW DAY has been a star attraction at dances and concerts for years. They play to people of all ages and from all walks of life. They have played for banker's private parties, and for audiences at the plush Red Lion Inn in Victoria, as well as playing numerous high school and college concerts. Craig Girard is lead vocalist, Bryan Politano plays lead guitar, Lorne Peasland and Brian Inness play bass and rhythm guitars respectively and Murray Coell is on the drums. This group will be appearing for two weeks.

Tribute to McLaren

The National Film Board of Canada's eminent film-maker Norman McLaren, continues to receive acclaim for his work from the film world. Attending a retrospective of his films at the Berlin Film Festival, McLaren was honoured with the UNICRIN prize in recognition of his outstanding film accomplishments over the years.

McLaren was praised for his personal vision and films which have enriched the cinema and have brought happiness to film viewers around the world.

"He is one of the most worthy and complete creators of the art of the screen," announced Charles Ford, president of the International Union of Film Critics.

Dan Murray

(Copyright Sterling Publications)

Spokane -- You could say that Evelyn Roth, a creative artist of sorts, is pulling the wool over the eyes of British Columbia taxpayers if Victoria's effort at Expo is any indication.

Pretty dry bread, I'd say. Her yards of knitting echoing the recycling bit which is part of the theme of this city's ambitious fair, literally assaults you in the \$300,000 B.C. Pavilion.

A little bit of Roth goes a long way at the best of times and at Expo I'm sure that Pixie Meldrum who supervises the exhibit for a \$28,000 fee is sometimes hard pressed to explain to our American friends just what Miss Roth had in mind when she got busy clacking those needles.

The knitted teepee and its knitted occupants which dominates the foyer could have been saved for another time... as I'm sure you'll agree with me that British Columbia has quite a story to tell.

I think Miss Roth got the recycling point across with her garlands of braided video tapes which festoon the patio and was only marred by a crudely hand lettered sign explaining from where the scrapped tapes came.

Of course, there are lots of more interesting things to see other than Miss Roth's fuzzy creations and I suggest the US Government's exhibit should top your list.

The highlight of this exhibit is a 22-minute gorgeous color film in an air conditioned theatre. It is truly dramatic because it is shown on a screen sixty feet high... and you are in right the middle! Its theme is our environment and it has some eye-boggling scenes which seem to pull the eyes right out of their sockets. The process is called Imax and relays Cinema to the status of an Edsel Car.

The film will be of particular interest to British Columbians

because its features our own Chief Dan George.

Then there is the USSR pavilion and for those who admire Lenin, they'll be greeted with a huge aluminum bust of the late dictator whose nose must be two feet long. He glowers over the main entrance.

The Russians have spent plenty of roubles in building their impressive exhibit. Air conditioning would have helped but it is still one of the most patronized shows at Expo.

The fair is right in the middle of this friendly city, easily accessible by public transport (25c) but patrons should go early in the day or later in the evening as it was 95 in the shade as I panted from country to country. Admission is \$4 per person and tourist accommodation seemed adequate and not too pricey.

Spokaneites are friendly people and we found they made us feel welcome. This was particularly noticeable with clerks, waitresses and gas jockeys. Inflation doesn't seem to have hit here as badly as at Vancouver. My friend's home

here in a nice district, very modern is valued by him at about \$30,000. I'm sure it would fetch \$70,000 in B.C. Those prices Controls must have some effect, too. Grade A large eggs were 62c per dozen.

You couldn't say that Expo is a great fair, but it is adequate and full bodied with a bouquet all its own. It should be served at room temperature after the pallet is cleaned with dry bread... and there's plenty of that at the British Columbia Pavilion!

(Dan Murray is the former publisher of the Alaska Highway News at Fort St. John and will be a regular contributor to the Herald.)

Atmospheric Environment Service Department of the Environment Vancouver, B.C.

The Atmospheric Environment Service of the Department of the Environment invites tenders for the operation of a Weather Station on a contract basis on the municipal Airport at Stewart, B.C. This station will be in operation each day of the year and will provide four Synoptic Reports and sixteen hourly Aviation Weather Reports, together with Special Aviation Weather Reports during that period in which Aviation Reports are taken each hour. The Contractor will be required to undertake routine maintenance of standard meteorological instruments and representative weather observations. Also, the Contractor will be required to obtain suitable space on Stewart Airport and provide the necessary office accommodations and facilities. Specifications and conditions governing these services may be obtained by writing to the Regional Director Atmospheric Environment Service, Department of the Environment, 739 West Hastings Street, Vancouver, B.C. V6C 1A1.

The lowest or any tender will not necessarily be accepted. Final date for receipted tenders in August 2nd, 1974.

J. L. Knox Regional Director, Pacific Region Atmospheric Environment Service

OFFER FOR VEHICLE OFFERS: plainly marked on the envelope "Offer on P.T. No. 45" will be received by the undersigned up to 5:00 pm 1 August, 1974 for the following located 'as is and where is' at the Skeenaview Hospital, 4011 Sparks St., Terrace, B.C.

1969 Ford 4-Door Sedan Serial No. 9P51F174093 Registration No. 1763230 Departmental Reference No. MH 156

For further information, contact Mr. S. Travers, Administrator of the Mental Health Centre, Ste. 4454 Lazelze St., Terrace, B.C. Phone 636-6163

Licence and registration of the vehicle are not included. Offers must be accompanied by a certified cheque of money order made payable to the Minister of Finance for 10 per cent of the bid. If the successful bidder subsequently withdraws his offer, the 10 per cent payment shall be liable to forfeiture.

The highest or any offer will not necessarily be accepted, but the bearer of a successful bid will be required to pay the S.S. Tax.

T.L. Vardy, CHAIRMAN, Purchasing Commission, Parliament Buildings, Victoria, B.C.

Department of Indian Affairs and Northern Development

SEALED TENDERS will be received by the undersigned until 2:00 pm (PDT) August 6th, 1974, for the placement of 186 tons of Bentonite clay in two new sewage lagoons, etc., at Lachkatsap Indian Reserve No. 9 (Greenville), on the north bank of the Nass River, about 85 road miles north of Terrace, B.C. in the Terrace Indian District.

Contract documents will be exhibited on the 15th floor of the Pacific Centre Building, Box 10661, 700 West Georgia St., Vancouver 1, B.C., and at the office of the Supervisor, Terrace Indian District, No. 251-4618 Lazelze Ave., Terrace, B.C. from July 15, 1974.

Sets of document are obtainable from these locations upon deposit (refundable) of a \$25.00 certified cheque payable to the Receiver General of Canada. Tenders must be submitted on the forms provided and according to the conditions set forth therein. The lowest of any tender not necessarily accepted.

W. G. Robinson, P. Eng., B. C. Regional Engineer.
